

Application No. 09/169,963, filed October 13, 1998, now U.S. Patent No. 6,006,318, which is a continuation of U.S. Patent Application No. 08/754,827, filed November 22, 1996, now U.S. Patent No. 5,822,603, which is a divisional of U.S. Patent Application No. 08/516,036, filed August 16, 1995, now U.S. Patent No. 5,742,840, and this This application is a continuation of U.S. Patent Application No. 10/646,787, filed August 25, 2003, which is a continuation of U.S. Patent Application No. 09/922,319, filed August 2, 2001, now U.S. Patent No. 6,725,356, which is a continuation of U.S. Patent Application No. 09/382,402, filed August 24, 1999, now U.S. Patent No. 6,295,599, which claims the benefit of priority to Provisional Application No 60/097,635 filed August 24, 1998, and is a continuation-in-part of U.S. Patent Application No. 09/169,963, filed October 13, 1998, now U.S. Patent No. 6,006,318, which is a continuation of U.S. Patent Application No. 08/754,827, filed November 22, 1996 now U.S. Patent No. 5,822,603, which is a divisional of U.S. Patent Application No. 08/516,036, filed August 16, 1995 now U.S. Patent No. 5,742,840.

However, U.S. Patent App. Pub. No. 2004/0153632 (the USPTO publication of the present application), in the section of the cover sheet entitled "Related U.S. Application Data," only lists the applications set forth in paragraph [0001] of the specification as originally filed, without regard to the above-mentioned Request for Corrected Claim of Priority. Also, U.S. Patent App. Pub. No. 2004/0153632 does not reflect entry of the above-mentioned amendment to paragraph [0001] of the specification. Similarly, continuity information for the present application available through PAIR also does not include the additional applications listed on page 2 of the above-mentioned Request for Corrected Claim of Priority (*see also* the November 10, 2010 "Bibliographic Data Sheet" available via PAIR).

In view of the above, Applicants respectfully request:

1. USPTO records for the present application be updated to fully reflect the benefit of priority claimed by the present application, as presented on page 2 of the Request for Corrected Claim of Priority filed on May 14, 2004;
2. Entry of the amendment to paragraph [0001] of the specification be entered, if entry of said amendment has not already been made;
3. That the USPTO ensure that the face of any patent to issue on the present application correctly indicates the benefit of priority claimed by the present application, as presented on page 2 of the Request for Corrected Claim of Priority filed on May 14, 2004.
